

Scholarship Opportunities:

During the 2009 NCCEP Capacity-Building Workshop, Learning Forum International (LFI), a 501(c)(3) non-profit educational organization, announced two scholarship opportunities for GEAR UP teachers and students to participate in Quantum Learning programs. LFI funds Quantum Learning programs for students and educators who don't have the resources and/or access to such programs. There are two opportunities available:

- Five GEAR UP students will receive a scholarship to attend a Senior Forum SuperCamp in summer 2009
- Five GEAR UP teachers will receive a scholarship to attend a 5-day Quantum Learning for Teachers workshop

Detailed information on these opportunities and application procedures are available at LFI's website (www.learningforuminternational.org). Applications are due by **April 30th, 2009**. NCCEP would like to thank Learning Forum International and Quantum Learning Network for their continued support of GEAR UP. Please encourage your teachers and student to take advantage of these opportunities and apply for a scholarship.

Thank you,
Betty Paugh Ortiz

Vice President
NCCEP
